

Orthopaedic

Right Place, Right Time, Right Choice

Your GP has recommended that you have an assessment by an Orthopaedic Specialist and you have the choice of which service to use. My General Practice & Ramsay healthcare provides this service. My General Practice is independently managed by local doctors and you will be seen by an NHS consultant orthopaedic surgeon who will advise the next stage of treatment.

At My General Practice, great emphasis is placed on achieving a smooth and stress-free experience for our patients so that you need only concentrate on your own wellbeing and your speedy recovery. If the next stage of your care does require surgery, it may be carried out at one of the Ramsay Healthcare Hospitals and any rehabilitation, physiotherapy or follow ups will be carried out locally again.

Your GP and our clinicians recognise that you need the highest clinical standards at a time and place convenient to you. Here at My General Practice, you will be seen in our dedicated consulting rooms and you are encouraged to discuss your condition and specific requirements with our clinicians; you will find our staff professional and friendly.

Your initial assessment will take place in Skimped Hill Health centre in Bracknell and any rehabilitation, physiotherapy and follow ups will be carried out locally as well. You will be contacted by Ramsay Healthcare who will discuss the earliest and most convenient time to suit your particular situation. Your GP will receive a full report from the clinician.

There is ample free car parking within a 2 minute walk and Bracknell bus and train station is about 7 minutes walking away. Thank you for choosing My General Practice.
